

May 1, 2015

I would like to take this opportunity to introduce you to the new Autopsy Technician/Medicolegal Death Investigator for the North Dakota Forensic Examiner's Office, who will be starting Monday, May 4, 2015.

Rick SyWassink comes to us from Iowa via Montana. He has years of law enforcement and death investigation experience and he is a diplomat and registrant of the American Board of Medicolegal Death Investigators.

You will soon be coming into contact with Rick as well as myself as the death investigators here in Bismarck. Please inform those members of your staff who routinely contact our office they may, in the near future, be talking with Rick.

If you have any questions or comments, please do not hesitate to write, call or email our office. Thank you for all your efforts.

Corey J Sayler D-ABMDI
Forensic Administrator
ND Forensic Examiner's Office
